SUMMARY

Full-stack web developer and Informatics Engineering graduate (GPA 3.88, Cum Laude) who has delivered 8+ paid web projects for real clients over 2+ years, with a strong track record in sports-health and athletic domains. Experienced across frontend and backend using Laravel, Vue.js, React, and TypeScript, and comfortable owning projects end to end — from client requirements and team leadership to development and on-time delivery. A former national-level archer whose background brings discipline, focus, and reliability to every project.

WORK EXPERIENCE

Freelance Full-Stack Web Developer 2023 – Present
Self-employed · Jakarta, Indonesia

- Delivered 8+ paid web applications for clients end to end, typically shipped within 1–2 months each, acting as both project manager and developer.
- Led development of [Edushe](#), an evidence-based sports-health and injury-recovery platform; managed a 2-person team, built the frontend, and hired and coordinated a backend developer.
- Built client websites including [Latissa](#) (beauty brand with a product-recommendation quiz and Filament CMS) and [BersihMax](#) (professional cleaning services with online booking).
- Developed [GoArchery](#), a company-profile and member-recruitment site for an archery club, with class registration, athlete rankings, schedules, and trial-class booking.
- Managed client communication, requirement analysis, and scoping across multiple concurrent projects, consistently delivering on time.

FEATURED PROJECTS

[Edushe](#) — Sports Health & Rehabilitation Platform 2025 – 2026
Project Manager & Frontend Developer · Client Project

- Evidence-based platform for sports-health information and injury prevention/recovery.
- Stack: Laravel 12, Vue.js 3, Inertia.js, TypeScript, Tailwind CSS, PrimeVue.

Strenvo — Physical Trainer Management System 2025
Project Manager & Frontend Developer · University Project

- Data-management platform for physical trainers: athlete data, scheduling, training programs, physical testing, and athlete ranking; led a 3-person team.
- Stack: Laravel, React 19, Inertia.js, Tailwind CSS, Vite.

EDUCATION

Mercu Buana University — Jakarta, Indonesia 2021 – 2025
Bachelor of Informatics Engineering · GPA 3.88 / 4.00 (Cum Laude)

- Thesis: Design and Implementation of a TOPSIS Ranking System in an Archery Athlete Training Management Application.
- Relevant coursework: Software Engineering, Database Systems, Web Development.

TRAINING & CERTIFICATIONS

- Full-Stack Developer Bootcamp — Harisenin.com (2025 – 2026): built an insurance-technology website as the final project.
- Full-Stack Web Development Program — MSIB Batch 6, Kampus Merdeka at PT Educa Sisfomedia Indonesia (2024): intensive training in web development, database design, API development, and deployment.
- BNSP Certification — Jakarta, Indonesia (2025).

BEYOND DEVELOPMENT

- National-level competitive archer for 10 years; 5× national medalist — building long-term discipline and focus under pressure.
- Archery coach across several clubs and school programs — leadership, communication, and mentoring.
- Competition data officer at national archery events — precise, real-time data handling and attention to detail.

SKILLS
